

What Keyzapp clients say

"Keys have been a problem in every agency I've worked in except this one"

Andy England, Southampton

We try out lots of technology... Keyzapp is our favourite.

Carly Baker, Black & White Property Services

"We love it, can't imagine how we survived without it before!"

Catherine Okell, SP Property Group

...And here's why...

Fast and simple

"It's so easy a child could use it"

- Jenny Pheonix, Chester Student Lets

"As the lettings industry comes under increasing pressure from government, anything that makes life easier and saves time is a good thing."

- Jo Wilson, Mullucks Wells

Fits the way you work

"Keyzapp fits our process well and is essential to the professional service we offer."

- Quirin Schwaighofer, Made Comfy

"The product is easy to use and adapt"

- Louise Amos, Rettie & Co.

Proven and reliable

"Keyzapp are superb. I have used their system for about 3 years and have not lost a key since - recommended."

Paul Kingham, Paul Kingham Residential

"It has been extremely reliable - we've used it for over a year without an outage"

- Quirin Schwaighofer, Made Comfy

Pays for itself many times over

"We worked out that we were spending a good 30 mins per day recording our keys which is now down to 5 mins!"

-Jo-Ann Stafford, John Hiltons

"Saves over £200 of time per month"

-Raz Rafiq, Hunters Shoreditch

Simple on the outside, But a powerhouse underneath

Keyzapp's simple exterior makes it easy to use, but its many powerful features are what really stop you losing keys

Works everywhere you have keys

Because key management doesn't just happen at your desk or at the cabinet, but outside of the office too

- Use it with any Phone, Tablet, PC or Mac
- Identify any key set with a simple scan
- Intelligently guesses what you are trying to do

Use your existing cabinets & key boards

Works with what you already have, no need for expensive or physical cabinets

- Use hooks on the wall, physical cabinets, peg boards & sign security systems
- Use different cabinets with different hanging systems at the same time

Specific processes for Lettings/Management

It's not always as basic as "in" or "out"- Different keys require different processes.

- Track tenant keys and management keys differently
- Transfer keys between people
- Report separately

Multiple offices & departments

Fits your business, large or small

- Each office can organise its keys separately
- Staff can monitor only the keys they care about
- Search for and reserve keys in other branches
- Complex reporting such as "All Lettings Keys", "All South West Region Keys"

Forensic reporting to catch & fix mistakes

Ensure that you know who's had access to your information at any stage

- Fully auditable compliance logs
- Identify when keys have been looked up but not properly signed out
- Comprehensive reports that export to Excel

SMS & Email Reminders & Receipts

Let people know what's going on and encourage them to take action

- Free SMS credits included for every customer
- Configurable alerts chase late keys automatically
- Send key receipts and address/alarm information to staff and contractors securely

Integrate with other systems

Combine your key processes with other business activities for a more efficient flow

- Integration across growing list of software
- "Web hooks" enable other systems to be alerted when keys go overdue (and other scenarios)
- Address sync API available

Master and Communal Keys

Sometimes the same keys open many different doors

- Models complex key-property relationships
- Identify when a front door key is needed
- Sign out master and specific keys at the same time
